

Plant of the Month:

Chionodoxa forbesii (Glory of the Snow)

- ✓ One of the earliest spring bulbs, hardy to Zone 3
- ✓ Height and Spread: 15-30 cm x 5-10cm
- ✓ Bloom time: March and April
- ✓ Available in blue, pink, or white (blue and pink have white centers)
- ✓ Likes full sun to part shade
- ✓ Requires medium moisture, tolerates summer drought
- ✓ Foliage disappears quickly after blooming
- ✓ Shows best when planted in swathes in rock gardens, lawns, under deciduous trees
- ✓ A good early food source for pollinators
- ✓ Located in the Crescent bed
